

Hi,  
Searching information about Krupp scooters, I found the site "CyberMotorcycle" that includes information about your archive.  
I want to collaborate with 3 photographs of Krupp "motorcycles" in Montevideo, Uruguay.  
Here some of them were imported for the city municipality (in Spanish: Intendencia de Montevideo).  
The use was for the cleaning department, with a sweep for clean the avenues and streets.  
Here you will find 3 photographs of them:

When arrives at Montevideo and was presented to the public:

Back view of one

<https://cdf.montevideo.gub.uy/catalogo/foto/19311fmhge>

The images are in Public Domain and digitalized in TIFF format.

Regards

Alan

---

Hi Alan,  
muchas gracias, thanks for your infos.  
I'm very happy that Axel's archive gets so much attention.  
For the time being it is static and not developed further.

Therefore I dared to publish and cite your infos in the biggest German forum for trucks and construction machinery:

<http://www.baumaschinenbilder.de/forum/thread.php?postid=1285568#post1285568>

I found one more entry with a Krupp scooter there:

<http://www.baumaschinenbilder.de/forum/thread.php?postid=780601#post780601>

Maybe you can even find some more.

If you happen to find more of these beautiful photos with trucks, busses or even agricultural or construction machinery, you could make many people happy !

You can even find more photos from Uruguay there, like these:

<http://www.baumaschinenbilder.de/forum/thread.php?postid=1138604#post1138604>

Good luck,  
thanks again,  
Boogie
